

Bartlit Beck Wins Complete Defense Verdict in Fraud Case Involving Stealth Boat Technology

Technology Innovations v. United Technologies (1996)

Florida state

Phil Beck and Peter Bensinger won a complete defense verdict for United Technologies in this cloak and dagger fraud case in Florida state court. Individual plaintiff, Bob Murphy, claimed United Technologies defrauded him when they introduced him to an Australian company that might help him and his partner develop his prize invention: a stealth boat built on the frame of a jet-ski which could not be detected by radar.
