

CORPORATE PRACTICE

Bartlit Beck has extensive experience handling a wide variety of complex transactions, including mergers and acquisitions, securities offerings, securities compliance issues, corporate finance, private equity and hedge fund formation, and counseling on sensitive corporate governance matters.

Quality, responsiveness, and efficiency are the hallmarks of our practice. We staff client matters with small deal teams where actively involved senior partners are an integral part of each team. Employing this model, Bartlit Beck has established itself as a premier provider of high-quality transactional legal services to investment funds, particularly private equity funds focused on the middle market, and private and public companies operating in a range of industries.

For further information on our Corporate Practice, please contact Rob Morrill or Tom Stephens.
